

FRIDGE MAGNET creator

Instruction Sheet

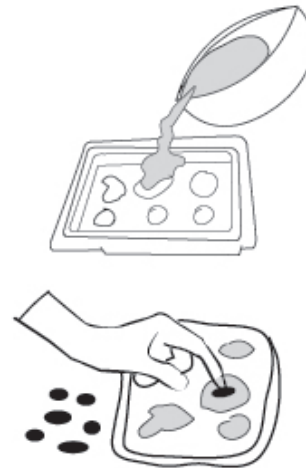

STEP 1. First put down some old newspaper to prevent mess. Wear a smock to protect clothing.

STEP 2. Using a mixing bowl, pour in the plaster powder. Gradually add water while stirring with a stirrer to form a paste consistency, stir the plaster quickly so it blends easily.

STEP 3. Quickly pour the plaster into the moulds in the trays so it fills the moulding shapes to the top. Use the pop stick to smooth the plaster. Tap the trays on a hard surface to remove air bubbles. Whilst still wet, place a magnet in each shape, don't push the magnet in too far into the plaster! Allow 24 hours to dry. Drying times may vary - make sure the plaster feels dry!

Adult supervision required.
Do not inhale dust or powder.
Do not place plaster in mouth.
Do not apply to body.

STEP 4. Once dry, gently tap the outside of the tray and slide the shapes out. Be careful when handling them as not to break them!

STEP 5. Paint the shapes any way you like! Be creative! Allow to dry.

STEP 6. Stick the magnets to your fridge, magnetic board or any magnetic surface!
