## DESIGN, MASK and PAINT your own Custom Mugs!

### 1 Prepare Workspace

First put down some old newspaper to prevent making a mess. Get a small container of water to wash your brush in, and wear a smock or old clothes to protect your clothing.

### 2 Design & Mask out

First give your mug a quick clean and dry. Use your masking tape to create lines and designs on your mug. Use your fingers to rub and make sure the tape is smooth on the mug. Now you are ready to paint!

### \* Inspiration

Here are some fun masking and design ideas!

### 3 Paint & Personalise

Paint your designs on the mug. It is not recommended to paint the inside of the mug. Wash paint brush immediately after design is complete.

### 4 Remove Tape & Dry

Once your paint is dry, very carefully remove the masking tape piece by piece and watch your design come to life!

### 5 Bake, Display & Use!

Get an adult to preheat the oven to 150°C (300°F). Get an adult to place both mugs in the oven carefully. Bake for 25 minutes (some cooking times may vary). Turn off the oven after 25 minutes and leave the door open, allowing the mugs to cool before removing them safely. Hand wash your mugs and they are ready to use!
