

FLOWER POT MAKER

INSTRUCTIONS

STEP 1 LAY OUT PIECES

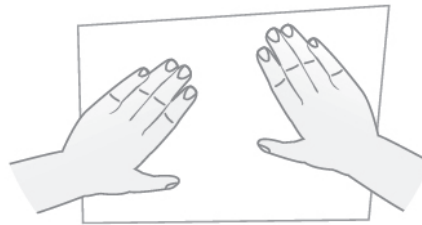

Check you have all the contents as listed below.

- | | |
|--------------------------|----------------------|
| 2x Plastic bottles | 2x Glue tubes |
| 4x Bags of coloured sand | 4x Felt Shape sheets |
| 4x Pipe cleaners | 1x Card funnel |
| 2x Ribbons | Instruction sheet |

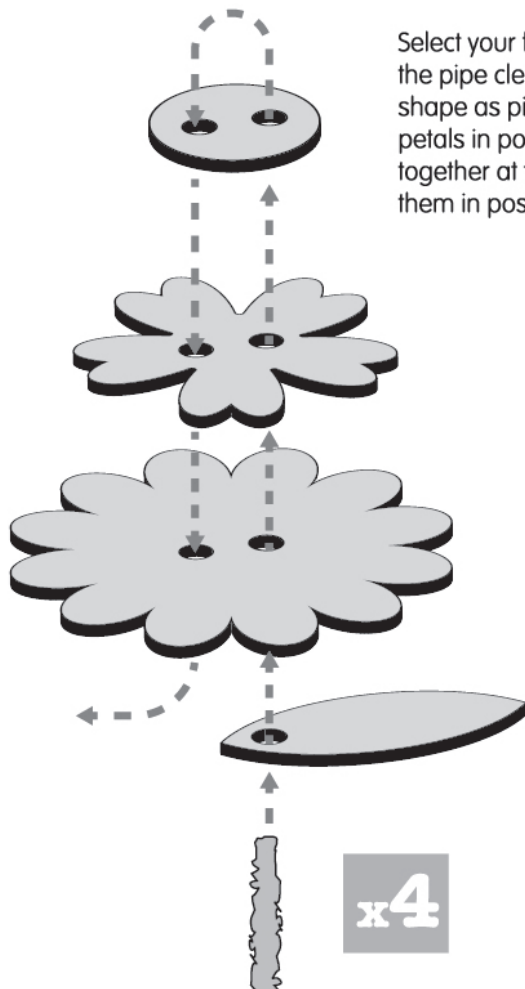

STEP 2 PREPARE WORKING AREA

Select a hard, flat surface to work on.
Place down some paper to protect your work area.

STEP 3 CREATE YOUR FLOWERS

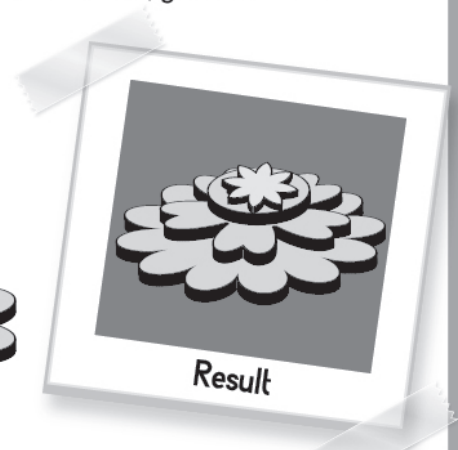

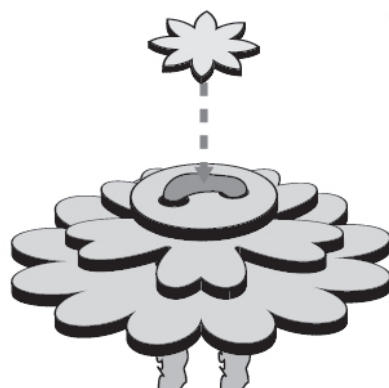

Select your flower petal shapes, and thread the pipe cleaner through the holes of each shape as pictured. Once you have the petals in position, twist the pipe-cleaners together at the back of the flower, to hold them in position.

STEP 4 CREATE YOUR FLOWERS

Cover the top shape by gluing on one of the small pieces with out holes (as shown on your box packaging) - to stick well, glue it onto the pipe-cleaner.

STEP 5 FLOWER STEMS

Fold the remainder of the pipe-cleaner in half and twist it so it is stronger. Twist the ends together.

STEP 6 SAND LAYERING

Take one of the bottles and choose a colour of sand. Using the funnel, carefully pour some of the sand into the bottle. Continue to fill the bottle with different layers of coloured sand in any design you like.

Place your flower stems through the bottle tops and gently push into the sand.

TIP: Insert stems into bottle while pouring to help your flowers stand up.

STEP 7 RIBBONS

Tie ribbons onto stems or the lip of your bottle. Your creation is now complete!

TIP: Use the corks to seal the tops of the bottles to avoid spillage if needed.

GO GREEN

Tips for sustainability

Sell or donate your creation rather than landfilling it if possible.
